Providing Personal Care Products For Human Dignity

We Are a Hygiene Hub Providing Basic Hygiene and Cleaning Products To Registered and Approved Locations.

Local support makes it possible to eliminate humiliation, promote learning and offer hope. When you embrace Giving the Basics you embrace human dignity for all people.

With local help and support, Giving the Basics provides the necessities of life, not covered by government assistance programs, that most people take for granted such as laundry soap, shampoo, deodorant, toilet paper and other personal care hygiene products.
